Whether you love watching sports, reading a book or you're more a movie fan, the Spectator rocking recliner is the chair for you.

With two handy built-in cup holders – one on each side, you'll never need to be without a drink or snack. The casual family-friendly style will look at home in most living spaces and it can be used as both a gentle rocking chair and a relaxing recliner.

The side handle allows you to move the legrest to just where you want it, while you can adjust the back into 16 different angles for your comfort.
