

Nora

The Nora rocking recliner is a traditional recliner with a difference. It comes with 16 different recline positions and three leg rest settings so you're sure to find the ideal combination for you.

Smaller than many similar products, the Nora rocking recliner will fit right into your living room and can also be used as a rocking chair with a smooth, soothing motion to help you relax.

The supportive padding allows you to unwind in complete comfort and it is designed to keep its shape even after years of use.
